Item 6. MUSC Medical Center Status Report

Stuart Smith briefed the committee on activity at Ashley River Tower since it’s opening in February. The census has continued to increase and additional beds are being opened as staffing is obtained.

Mr. Smith also reported on several survey teams which have recently been at MUHA. The Joint Commission recently performed a Laboratory Point of Care Testing survey and CMS has surveyed the renal transplant program. Both surveys went well, and the recommendations made by the survey teams are being addressed.

Statistics and activity levels for the Medical Center have remained stable since the last Board meeting.
Dr. Marilyn Schaffner reported on hourly rounding in the Medical Center. This is a process by which a caregiver rounds on each patient once each hour during the day and once every two hours during the night. This visit includes checking to see if the patient is comfortable, needs to use the restroom, or requires something for pain. National statistics show that this hourly rounding increases patient satisfaction and patient safety. MUSC is measuring various metrics to evaluate the benefits of hourly rounding on our patients.

Mr. Smith reported that MUHA and UMA have submitted a joint request for a certificate of need for the North Area facility. MUHA plans to place an infusion center in the North Area facility. This will be operated by the Medical Center. The infusion center in Mount Pleasant has been temporarily closed due to a lack of medical oncologists. Mr. Smith proposed that the Department of Medicine re-open the Mt. Pleasant Infusion Center. The Department of Medicine will handle the rent, procurement of drugs and staff, and will receive the proceeds from this operation.

At the end of a year, MUHA will evaluate the operation of the two infusion centers to determine which method of operation is most effective. Dr. Feussner has recruited additional medical oncologists and hopes to recruit additional ones in the near future. The Board concurred with this approach and will look forward to an update on the two methods of operation at the end of the year.

Action: Report received as information

Item 7. MUSC Medical Center Financial and Statistical Report

Ms. Montgomery reported that the medical Center is ahead of budget on income and margin, and that expenses are under budget. As a result of debt service and a Medicaid shortfall of $12 million, the Medical Center currently has a decline in cash on hand. She reported that she expects additional unrestricted cash to become available by July, 2008.

A total of 57 additional beds will be available by the end of May. This should allow the Medical Center to reach its goal of an average census of 540 during FY 2009. Ms. Montgomery will also request that a line of credit be reinstituted in view of the lowered cash position and to be in place should it be needed during the hurricane season.

Action: Report received as information

Item 8. Line of Credit Renewal Request

Ms. Montgomery requested that a $28 million line of credit be authorized by the board in order to seek Budget and Control Board approval in April.

Action: Recommend approval
Item 9: Amendment to Ambulatory Patient Care Management Agreement

The Ambulatory Patient Care Management Agreement has been amended to include clinical activity at the Ashley River Tower.

Action: Recommend approval

Item 10. Update on Patient Safety

Dr. Patrick Cawley briefed the committee on MUHA’s initial results from the Hospital consumer Assessment of Healthcare Providers and Systems or HCAHPS. This initiative requires that all CMS hospitals participate in the HCAHPS program to assess the patients’ perspective on the healthcare they receive in various hospitals. Standardized questions are used by each hospital and results are publicly reported. MUSC’s results have been very good as compared to the local market and to the teaching hospitals in South Carolina as well as nationally. In the future this data could have a direct impact on reimbursement for hospitals.

Action: report received as information

Item 11. Report by Vice President for Medical Affairs and Dean, College of Medicine.

Dr. J. G. Reves reported on Match Results, LCME Step 1 Test Results, and NIH funding. The College of Medicine reported that 122 of 130 students matched with places they had requested. The 8 students who did not initially match, later all received matches. All MUSC’s primary programs were initially filled with the exception of Psychiatry, which has now been filled. Forty percent of MUSC’s students matched with in-state programs which means that we are keeping talent in the state. While most of our students matched in the southeastern states, we had students placed throughout the country.

Dr. Reves reported that MUSC is slightly ahead of the national average on the number of students passing Part One of the LCME, and he also reported that NIH funding was at $77 million.

Action: Report received as information

Item 12. Report of University Medical Associates

Dr. Jack Feussner introduced Mr. Stephen Valerio as the new CEO of University medical Associates.

Dr. Feussner reported on UMA activities as follows:
Dr. Jennifer Clark will devote three hours per week to the KidsPath program with Hospice of Charleston.

UMA would like to acquire the Carolina OBGYN practice in the West Ashley area. This acquisition will be made by assuming the rental of the facility and equipment. The three physicians will join the Department as faculty, and the staff will become UMA employees. This will increase the UMA presence in the West Ashley area.

The Department of Orthopedics outreach includes health care sponsorship of the Caroling Battery Soccer team and the Family Circle Cup Tournament. There are no space or resource requirements.

The Department of Psychiatry has requested purchase of a High Performance Liquid chromatography System. This is used in the treatment of alcoholism. This equipment will generate approximately $200,000 per year with a purchase cost of $54,000.

Dr. Feussner reported that membership in the UMA has increased from 490 in FY 04 to 619 in March, 2008. Revenue has increased from $125 million in FY 04 to $193.5 (annualized) for FY08. Reserves have increased from $25.5 million in FY04 to $84.6 million (annualized) in FY 08.

Patient visits have increased from slightly more than 400,000 in FY 05 to 600,000 (annualized) in FY08. UMA has greatly increased its number of sites within the community and has outreach activities in 26 communities in South Carolina, provided by 15 of the 16 clinical departments.

Action: recommend approval of acquisition of Carolina OBGyn Practice, and recommend purchase of $54,000 in equipment for Department of Psychiatry.
