RECOMMENDATIONS AND INFORMATIONAL REPORTS OF THE PRESIDENT.

OLD BUSINESS: None.

NEW BUSINESS:

Item 5. General Informational Report of the President

Dr. Greenberg asked Rick Schnellmann to introduce the speaker. Dr. Schnellmann introduced Dr. Patrick Woster. He received his undergraduate degree and Ph.D. from the University of Nebraska and his post doctoral studies were at the University of Michigan. He was at Wayne State for twenty three years before coming to MUSC as the SmartState Endowed Chair in Medicinal Chemistry and a leader in the Cancer Drug Discovery Center.

He discussed his work and research prior to coming to MUSC and his plans for drug discovery at MUSC. He said the goal is to develop a world-class collaborative drug discovery program at MUSC by providing a core facility for drug synthesis and compound development. The new Drug Discovery Building is important to the plan.

Dr. Greenberg stated that the University if very pleased to have Dr. Woster at MUSC and the timing couldn’t be better with the new Drug Discovery Building coming on line.

Dr. O’Bryan was pleased to introduce the next speaker, Dr. Kris Crawford, an MUSC graduate. Dr. Crawford was in the family medicine program in Florence and went into family medicine and emergency medicine. He was elected to the House of Representatives and has been an advocate for MUSC in the Legislature.

Dr. Crawford said he feels MUSC is the main organization in South Carolina that can move healthcare forward. The mission and role of MUSC in South Carolina and Southeast is critical in modeling the delivery of healthcare. The challenge is that state funding for healthcare is shrinking and the need for care is expanding. How we take care of patients has to change. We are also going to have to get better at delivering care out to the remote areas and he feels MUSC will be a major part of that effort.

Dr. Greenberg thanked Dr. Crawford for his support in the general assembly. He invited Dr. Crawford to return to continue the discussion with the Board.

Dr. Greenberg distributed his activity report and stated it had been a busy time.

He asked the Board to approve the following resolution:

_The Board of Trustees of the Medical University of South Carolina declared the Medical University of South Carolina and the Medical University Hospital Authority a completely smoke-free campus. The Board directed administration to erect appropriate signage and develop appropriate_
enforcement policies and procedures and penalties to maintain a completely smoke-free environment.

Recommendations of Administration: That the smoke-free resolution be approved.

Board Action: A motion was made seconded and unanimously voted to approve the smoke-free resolution.

August 12, 2011

Statement: Mr. Berlinsky stated the following report had been presented to the committee:

Student Update:

SGA President and College of Pharmacy Student, Carol Brown, provided a brief update on activities of the Student Government Association. Ms. Brown was delighted to announce that the Student Government Association plans to support and participate in the MUSC Heart Walk for the American Heart Association this year. She briefly discussed two major goals for the SGA regarding a smoke-free campus and improved health insurance coverage for students.

College of Nursing Update:
Dr. Stuart gave a stellar presentation on the College of Nursing’s growth and transformation over the past ten years. The report focused on four areas: capacity, accountability, quality outcomes, and challenges. There was discussion regarding the online program that awards both the Master of Science in Nursing degree and the Doctor of Nursing Practice upon graduation.

Dr. Stuart also responded to questions regarding the historical placement of the Nurse Anesthesia Program that is housed in the College of Health Professions.

Dr. Greenberg applauded Dr. Stuart for her outstanding leadership, and the culture of excellence evidenced in the strong positive ratings she received in the faculty evaluation surveys.

Academic Charges and Fees Update
Dr. Sothmann announced that the College of Pharmacy tuition that was approved by the MUSC Board in April 2011 was contingent upon a balance with the University of South Carolina’s tuition due to the dual nature of the College. This has resulted in a 1% decline in the overall tuition rate, the final fee being $21,500.00. Dr. Sothmann asked that this be received as information and it was duly noted.

Recommendation of Administration: That the report be received as information.

Recommendation of Committee: That the report be received as information.

Mark Sothmann, PhD
Provost and Vice President for Faculty Affairs
Medical University of South Carolina
Charleston, South Carolina 29425

Dear Mark:

I am writing to request permission to establish a new Department of Population Health Sciences within the College of Medicine. It is my hope that, if approved, this proposal could be considered by the Board of Trustees at their meeting in August 2011. In addition to the benefits the proposed department would bring to MUSC, its development is also critical to our ability to deliver effective and high-quality healthcare to the citizens of South Carolina and beyond.

As you know, I initiated a research strategic planning process for the College of Medicine in fall 2010. One of the areas of opportunity for growth and investment identified by this faculty committee was in the area of population sciences. There is a strong emergence of NIH funding for comparative effectiveness research and disparities research, among others, that can be taken advantage of by strengthening population science efforts on campus. Earlier this spring, under the leadership of Senior Associate Dean for Research Craig Crosson, I charged a faculty committee with preparing a strategic plan for the growth and development of a population health sciences program within the College of Medicine. That committee has now submitted its initial set of recommendations, which includes the establishment of a Department of Population Health Sciences.

The committee further recommended that the Division of Biostatistics and Epidemiology, which currently resides within the Department of Medicine, be reassigned to the new Department of Population Health Sciences, and that those disciplines (biostatistics and epidemiology) become separate divisions within the new department. As you know, we are currently searching for a Chair of our Department of Medicine; thus, this is an appropriate time to discuss the transition of the Division of Biostatistics and Epidemiology from the Department of Medicine to the proposed Department of Population Health Sciences.

If approved, I would anticipate our beginning a national search for a Chair of the new Department of Population Health Sciences this fall, with the goal of establishing the new department in fiscal year 2013. We would transition the Division of Biostatistics and Epidemiology and its associated faculty and staff to the new department once it is established.
Please let me know if you have any questions or if you would like any additional information related to this request.

Sincerely,

Etta D. Pisano, MD

Vice President for Academic Affairs and Provost
Medical University of South Carolina

Dear Mark,

I am requesting permission to establish a new Department of Healthcare Leadership and Management in the College of Health Professions.

The College of Health Professions currently has two Departments: the Department of Health Professions and the Department of Health Sciences and Research. Within the Department of Health Professions there are six academic divisions with degree programs - Nurse Anesthetist, Cardiovascular Perfusion, Occupational Therapy, Physician Assistant, Physical Therapy, and the Master’s degree program in Health Administration. The Department of Health Sciences and Research houses our primary research faculty with three degree programs - PhD in Health and Rehabilitation Sciences, Master’s in Research Administration and the Executive Doctoral degree program in Health Administration.

As you can see, we have two different health administration degree programs, one doctoral and one master’s in two separate departments.

Many of the graduates of these two programs occupy leadership positions in the MUSC/MUHA enterprise, across the nation and the world. Both are strong programs and they share many of the same faculty. As we embark on health care reform, the need for strong leaders with knowledge of health policy, health delivery systems, quality improvement, and resource management is apparent.

In order to maximize the efficiency of our health administration programs and to position these programs to provide leadership as the future of health care evolves, I am proposing a new Department of Healthcare Leadership and Management that will house the following:
• Master in Health Administration
• Executive Doctorate in Health Administration
• Developing global initiatives that will provide various forms of health administration content to countries seeking our expertise in this area. At this time, we are working on proposals for China, South Africa, Brazil and Argentina.

This proposed Department of Healthcare Leadership and Management has been vetted by the entire faculty involved in health administration programs and by the faculty leadership in the College of health Professions.

Thank you for your consideration. Please let me know if you have questions or concerns.

Sincerely,

Lisa Saladin PT, PhD
Interim Dean, College of Health Professions

PROJECT TITLE: Quad F Cooling Tower Replacement

PROJECT NUMBER: 9816

CURRENT APPROVED BUDGET: $300,000

TOTAL REVISED BUDGET: $450,000

SOURCE(S) OF FUNDS: University Operating Funds

JUSTIFICATION: This project scope entails the replacement of a fourteen year old fiberglass 700-ton cooling tower with a new stainless steel tower. The base and structure are deteriorated beyond a repairable condition and the tower is leaking chemically treated water onto the roof and surrounding structure. The steel base supporting the tower is also corroded to the extent where replacement is required due to the harsh environment and the leakage from the tower. The existing tower will be removed by crane and the steel platform rebuilt, placing the new tower by crane, and making the appropriate piping and pump connections.

The original tower estimate of $300,000 as noted in last year’s capital budget, was based on a similar tower purchased seven years ago and did not consider the extent of repairs needed to the supporting structure on the roof. The current tower estimate is based on a quote from EVAPCO and our design consultant prepared the scope of work and calculations.

PROJECT TITLE: College of Nursing Interior Renovation of Floors 2 - 5

PROJECT NUMBER: To Be Determined

TOTAL ESTIMATED BUDGET: $ 8,000,000

SOURCE(S) OF FUNDS: College of Nursing Operating Funds and University Institutional Capital Project Fund

JUSTIFICATION: The College of Nursing Building is a five-story structure constructed in 1956 and designed initially as a nursing dormitory. The use of this building changed over the years into office and classroom space for the College. Remnants of the original dormitory usage, such as shared bathrooms between rooms, still exist. With the exception of the Simulation Laboratory on the first floor, this building has received no substantial renovation since its construction. Because of this, deterioration has occurred with the plumbing in disrepair and the heating and air systems compromised. The lack of efficient space and the condition of the building’s infrastructure systems threaten the growth of the College.

This project involves the renovation of floors 2 through 5, encompassing approximately 36,000 gross square feet. The interior floor space will be demolished and completely reconfigured to meet the current needs of the College resulting in more efficient and effective use of space. The building’s total number of classroom seats will increase by approximately 70. A student services area and separate computer lounge, as well as additional conference, multipurpose rooms and offices will be incorporated. Dedicated research space of approximately 1,400 assignable square feet will be included. This renovation will also replace the HVAC, plumbing, electrical, and fire alarm distribution systems on each floor. A new fire sprinkler and standpipe system will be installed. The Building’s roof and crawl space piping will be replaced as well as the elevators. Existing exterior windows will be replaced or upgraded depending on the approval of the City’s Board of Architectural Review.

Funding for this project will come from the College of Nursing and the University.
Provide mechanical engineering services on an as-needed basis throughout the campus. Services not to exceed $300,000 over a two year period. Releases are not to exceed $100,000 each project. Up to three firms may be selected.

Provide roofing and waterproofing consulting and design services on an as-needed basis. Services not to exceed $300,000 over a two year period. Releases are not to exceed $100,000 each project. Up to three firms may be selected.

Meeting Time: 1:45 pm-2:16 pm

Regular Agenda

Item 8. General Report of the Associate Provost for Research

Dr. Lanier presented the research activities report. For the year ending June 30, 2011 MUSC achieved a new record for extramural research funding. Total extramural funding increased from $234 million in FY2010 to over $238 million for FY2011. NIH funding decreased from $136 million in FY2010 to $118 million in FY2011 reflecting a reduction in ARRA (stimulus) funds. ARRA funds from the NIH totaled at just under $27 million for FY2010 compared to $13 million for FY2011. Dr. Lanier also mentioned that in FY2011 MUSC appointed nine Endowed Chairs through the South Carolina Centers of Economic Excellence (CoEE) Program.

Dr. Lanier introduced Judy Dubno, PhD, Professor in the Department of Otolaryngology – Head & Neck Surgery and Director of the MUSC Hearing Research Program, who served as chair of the committee that reviewed nominations for the 2011 MUSC Foundation Developing Scholars. This award recognizes junior faculty members who have made outstanding contributions to the research mission of MUSC. Dr. Dubno described the award and the review process and then introduced the award recipients. The awardees in the Basic Sciences Category are Carl Atkinson, PhD, Assistant Professor in the Department of Microbiology & Immunology and L. Ashley Cowart, PhD, Assistant Professor in the Department of Biochemistry & Molecular Biology. The awardees in the Clinical Sciences Category are Diane L. Kamen, MD, MSCR, in the Department of Medicine (Rheumatology & Immunology) and Susan D. Newman, PhD, RN, from the College of Nursing.

Item 9. General Report of the Vice President for Development

Mr. Fisher reported that MUSC completed its most successful fundraising year ever in FY2011. Gifts and pledges for FY2011 totaled $82.8 million, a 7.8% increase over the previous fiscal year. Mr. Fisher noted several interesting statistics regarding gifts received in FY2011. The Office of Planned Giving received a record $24.8 million in new
deferred gift activity. This represents an increase of 35% over last year’s total of $18.3 million. Realized planned gifts increased from $2.3 million to $3.4 million—an increase of 47%. During FY2011, 17 gifts or pledges were received at the leadership level of $1 million or more including the largest single gift ever given to the Medical University—a anonymous gift of $15 million. There was a 157% increase in the number of on-line gift transactions (507 to 1308) and a 122% increase in the dollar amount received on-line. There was also an increase in the number of donors, up 11% from FY2010 to FY2011. Across all colleges, an average of 30% of alumni belong to their respective Alumni Association.

**Recommendation of Administration:** That this report be received as information.

**Recommendation of Committee:** That this report be received as information.

**Board Action:**

**Item 10. General Report of the CEO of the MUSC Foundation**

Mr. Anderson reported that the MUSC Foundation increased total assets from $346 million for FY2010 to a record level of $400 million for FY2011, a 15.6% increase. Mr. Anderson reported on several projects the Foundation successfully accomplished during FY2011. The Established Horizon Project Foundation, Inc., in collaboration with the City of Charleston and South Carolina Research Authority, will develop the Horizon area mixed use, research-oriented project. The Strategic Initiatives Committee was created, chaired by Director Dan Sullivan, to establish better communications/interactions with FRD leadership and to facilitate tech transfer start ups. An Education Committee Chaired by Elizabeth McCullough, Esquire, was established to foster a better-informed and engaged Board. A Development Committee Chaired by Bob Sywolski was reestablished, to increase Board engagement with the Development office to foster increased philanthropy.

**Recommendation of Administration:** That this report be received as information.

**Recommendation of Committee:** That this report be received as information.

**Board Action:**

**Item 11. General Report of the Executive Director of the MUSC Foundation for Research Development**

Mr. Hood reported that FRD completed a record year for the total number of total deals (licenses and options), and tied for second best year in the number of issued patents and startups. Mr. Hood noted that available inventory is low due to limited number of new patent findings, primarily constrained by budget. FRD has added a new technology transfer staff jointly supported by SCTR and the Office of the President and this has substantially reduced the wait for faculty with new discoveries. FRD is engaging industry at both the strategic and project level. The new Office of Industry Partnerships has signed +$1M in clinical trial business for MUSC with a ~25% average margin. FRD completed a Strategic Planning Session at its July Board of Directors meeting in which a substantial consensus on the mission of FRD was reached and the strategic goals of FRD were aligned with MUSC’s Strategic Plan.

**Recommendation of Administration:** That this report be received as information.

**Recommendation of Committee:** That this report be received as information.

REGULAR AGENDA

Item 13. General Report of the Vice President for Academic Affairs

Statement: Dr. Sothmann presented the following general Report:

Student Update:

SGA President and College of Pharmacy Student, Carol Brown, provided a brief update on activities of the Student Government Association. Ms. Brown was delighted to announce that the Student Government Association plans to support and participate in the MUSC Heart Walk for the American Heart Association this year. She briefly discussed two major goals for the SGA regarding a smoke-free campus and improved health insurance coverage for students.

College of Nursing Update:
Dr. Stuart gave a stellar presentation on the College of Nursing’s growth and transformation over the past ten years. The report focused on four areas: capacity, accountability, quality outcomes, and challenges. There was discussion regarding the online program that awards both the Master of Science in Nursing degree and the Doctor of Nursing Practice upon graduation.

Dr. Stuart also responded to questions regarding the historical placement of the Nurse Anesthesia Program that is housed in the College of Health Professions.

Dr. Greenberg applauded Dr. Stuart for her outstanding leadership, and the culture of excellence evidenced in the strong positive ratings she received in the faculty evaluation surveys.

Academic Charges and Fees Update
Dr. Sothmann announced that the College of Pharmacy tuition that was approved by the MUSC Board in April 2011 was contingent upon a balance with the University of South Carolina’s tuition due to the dual nature of the College. This has resulted in a 1% decline in the overall tuition rate, the final fee being $21,500.00. Dr. Sothmann asked that this be received as information and it was duly noted.

Regular and Consent Agenda
All Regular and Consent agenda items were unanimously approved.

Item 19. Faculty Appointments

Statement: At the request of the Deans of the colleges of Dental Medicine, Health Professions, and Medicine, administration presented the following faculty appointments:

*College of Health Professions*

**Judy R. Dubno, Ph.D.,** (joint appointment) as Adjunct Professor in the Department of Health Sciences and Research, effective July 1, 2011

Dr. Dubno’s primary appointment rests in the Department of Otolaryngology – Head and Neck Surgery, College of Medicine

**Mark Andrew Eckert, Ph.D.,** (joint appointment) as Adjunct Associate Professor in the Department of Health Sciences and Research, effective July 1, 2011

Dr. Eckert’s primary appointment rests in the Department of Otolaryngology – Head and Neck Surgery, College of Medicine

*College of Medicine*

**Truman R. Brown, Ph.D.,** (dual appointment) as Professor in the Department of Neurosciences, effective April 1, 2011.

Dr. Brown’s primary appointment in the Department Radiology and Radiological Science and secondary appointment in the Department of Neurosciences was stated incorrectly in the May 2011 Board agenda.

**Laura A. Carpenter, Ph.D.,** (dual appointment) as Associate Professor in the Department of Psychiatry and Behavioral Sciences, effective August 1, 2011

Dr. Carpenter’s primary appointment rests in the Department of Pediatrics, Division of Developmental/Behavioral Pediatrics.

**William F. Conway, M.D.,** (dual appointment) as Professor in the Department of Orthopaedic Surgery, effective August 1, 2011

Dr. Conway’s primary appointment rests in the Department of Radiology and Radiological Science.

**Richard R. Drake, Jr., Ph.D.,** as Professor with tenure, in the Department of Cell and Molecular Pharmacology and Experimental Therapeutics, effective July 1, 2011

**Joseph A. Helpern, Ph.D.,** (dual appointment) as Professor in the Department of Neurosciences, Division of Neuroscience Research, effective April 1, 2011.

Dr. Helpern’s primary appointment in the Department Radiology and Radiological Science and secondary appointment in the Department of Neurosciences was stated
incorrectly in the May 2011 Board agenda.

**Jens H. Jensen, Ph.D.**, as Professor with tenure, on the Academic Investigator track, in the Department of Radiology and Radiological Science, effective August 1, 2011

**Fred C. Osher, M.D.**, as Adjunct Professor in the Department of Psychiatry and Behavioral Sciences, effective June 1, 2011

**Uwe Otto P.J. Schoepf, M.D.**, (dual appointment) as Professor in the Department of Pediatrics, Division of General Pediatrics, effective July 1, 2011

Dr. Schoepf’s primary appointment rests in the Department of Radiology and Radiological Science.

**Inderjit Singh, Ph.D.**, (dual appointment) as Distinguished University Professor in the Department of Radiation Oncology, effective June 1, 2011

Dr. Singh’s primary appointment rests in the Department of Pediatrics.

**Hongjun Wang, Ph.D.**, as Associate Professor, on the Academic Investigator track, in the Department of Surgery, Division of General Surgery, effective May 1, 2011

**Nancy J. Warren, Ph.D.**, as Clinical Associate Professor in the Department of Psychiatry and Behavioral Sciences, effective July 1, 2011

**Robert W. Warren, M.D., Ph.D., M.P.H.**, as Professor with tenure, on the Clinician Educator Track, in the Department of Pediatrics, Division of Pediatric Rheumatology, effective July 1, 2011

**Anthony C. Woodman, Ph.D.**, as Adjunct Professor in the Department of Pediatrics, Division of Pediatric Epidemiology, effective May 1, 2011

*College of Dental Medicine and Medicine*

**Philip H. Howe, Ph.D.**, (joint appointment) as Professor with tenure, on the Academic Investigator track, in the Department of Biochemistry and Molecular Biology, effective July 1, 2011

Dr. Howe also will serve as the Hans and Helen Koebig Endowed Chair in Clinical Oncology, as well as the Associate Director for Research at the Hollings Cancer Center.

**Chentharamakshan Vasu, Ph.D.** (joint/dual appointment) as Associate Professor, on the Academic Investigator track, in the Department of Microbiology and Immunology, with a dual appointment as Associate Professor in the Department of Surgery, Division of General Surgery, effective August 16, 2011

Dr. Vasu’s primary appointment will rest in the Department of Microbiology and Immunology.

**Jennifer D. Wu, M.D., Ph.D.**, (joint/dual appointment) as Associate Professor, on the Academic Investigator track, in the Department of Microbiology and Immunology,
with a dual appointment as Associate Professor in the Department of Urology, effective August 1, 2011

**Recommendation of Administration:** That these faculty appointments be approved.

**Recommendation of Committee:** That these faculty appointments be approved.
