underway of brain research cooperation between the institute in Queensland and MUSC's neurosciences division. The Centers of Economic Excellence Endowed Chair Proposals Review Panel was on campus. MUSC presented two proposals – one on stroke and one on tobacco related cancers. In addition, at Clemson, there was a hospital design proposal Dean Reves and Dr. Greenberg have been very involved with. So MUSC is involved with 3 of the 6 proposals being considered and the results, including funding recommendations, should be known within the next couple of months. A very positive meeting was held with Mayor Riley about the future research park capacity. Dr. Greenberg reported a very successful meeting of the capital campaign cabinet and stated Dr. O'Bryan and Mr. Hewitt are members of the cabinet.

Dr. See received his undergraduate degree at University of California, Berkeley; his MA and PhD in psychobiology at UCLA. He has the first methamphetamine translational research center in the country.

Dr. See discussed the scope of the addiction problem and the scope of methamphetamine research at MUSC. He concluded by stating that MUSC is among the world's leading centers for addiction research.

**REGULAR AGENDA**

Item 9. General Report of the Vice President for Academic Affairs and Provost

Statement: Dr. Raymond gave a brief overview of the MUSC Trustees Leadership Academy Program and the success of its inaugural year. The general structure of the Trustees Leadership Academy is comprised of three parts. The first involves a series of didactic weekend seminars with outside speakers. The second component involves performing a project that benefits the institution and provides key experiences for the Leadership Fellow. The third component is a capstone experience such as shadowing activity with leaders of other universities, or a formalized offsite leadership experience such as those provided by the Harvard Business School, the AAMC, ADEA, etc.

The purpose of the academy is to provide formalized leadership training opportunities for faculty and staff at MUSC and its affiliate organizations. The concept was discussed at Deans' and President's Councils in early 2006 and enthusiastically endorsed by the Board of Trustees. Dr. Russ Nazzaro agreed to develop the concept and implement the inaugural program, into which seventeen fellows were inducted. The first group was comprised of twelve women and five men, fourteen of who had primary faculty appointments. Faculty ranks were from Instructor to Professor, and individuals represented the Colleges of Dental Medicine, Health Professions, Medicine, Nursing and Pharmacy, the Library system, and the Provost's office. By all accounts, the first year of the TLA was successful, as evidenced by increasing interest in the Academy this year.

Dr. Raymond presented for approval five of the inaugural participants (Ms. Kristi R. Beeks, Dr. Amy Blue, Ms. Leslie Kendall, Mr. Darren McCants and Ms. Lynn Shull) to be designated as "Nazzaro Fellows of the MUSC Trustees Leadership Academy. The Board approved that future Trustees Leadership Academy Fellows from academic administration and from behavioral sciences would be designated as Dr. James Russell Nazzaro Fellows of the MUSC Trustees Leadership Academy. The Committee endorsed this request.

#### **LAND SALES**

#### **FOR APPROVAL**

**May 17, 2007**

**LAND SALES:** Two Land Parcels in Upper Lockwood near Harborview Office Tower

**ESTIMATED SALE PRICES:** \$3.3 million and \$6.1 million

**JUSTIFICATION:** The Medical University, City of Charleston, and the South Carolina Research Authority have been collaborating the past few years to create a research-focused, mixed-use development in the Upper Lockwood Area. This will be a multi-phased economic development project, and Phase I will be a patient-oriented research tower and parking structure on land currently owned by the MUSC Foundation and the Medical University.

A key step in moving forward with this initiative is for the Medical University to sell to the MUSC Foundation two parcels of land totaling approximately 6.2 acres, situated immediately to the west of Harborview Office Tower. A portion of this land is currently used primarily for employee parking. Less than one acre consists of wetlands.

Recent MAI appraisals establish a fee simple fee of \$3.3 million for 2.25 acres, and \$6.1 million for 3.95 acres. We are requesting approval to sell this land at the appraised values.

Proceeds from the sale will be used for new facilities.
