

AGENDA

(REGULAR AND CONSENT)

HOSPITAL AUTHORITY BOARD OF TRUSTEES AND UNIVERSITY BOARD OF TRUSTEES

APRIL 7, 2006

REGULAR AGENDA

Board of Trustees Meeting Thursday, May 16, 2013 9:00 a.m. 101 Colcock Hall

Members of the Board of Trustees

Thomas L. Stephenson, Esquire, Chairman Dr. James E. Wiseman, Jr., V-Chairman

Dr. Stanley C. Baker, Jr. Mr. William H. Bingham, Sr.

Dr. Cotesworth P. Fishburne, Jr.

Mr. William B. Hewitt Dr. Harold W. Jablon Dr. Donald R. Johnson II Dr. E. Conyers O'Bryan, Jr. Dr. Thomas C. Rowland, Jr. Mr. Charles W. Schulze

The Honorable Robin M. Tallon Dr. Charles B. Thomas, Jr.

Trustees Emeriti
Mrs. Margaret M. Addison

The Honorable Robert C. Lake, Jr. Mrs. Claudia W. Peeples Mr. Allan E. Stalvey

Item 1. Call to Order-Roll Call.

Item 2. Secretary to Report Date of Next Meeting.

Regular Meeting: Friday, August 9, 2013

Item 3. Approval of Minutes of the Regular Meeting of the Medical University Hospital

Authority of April 11, 2013.

Board Action:

RECOMMENDATIONS AND INFORMATIONAL REPORTS OF THE PRESIDENT

OLD BUSINESS:

NEW BUSINESS:

<u>Item 4.</u> <u>General Informational Report of the President.</u>

Statement: Dr. Greenberg will present a general report.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 5. Other Business.

MEDICAL UNIVERSITY HOSPITAL AUTHORITY OPERATIONS, QUALITY and FINANCE COMMITTEE. CHAIRMAN: DR. STANLEY C. BAKER. JR.

OLD BUSINESS:

NEW BUSINESS:

<u>Item 6.</u> <u>MUSC Medical Center Status Report.</u>

Statement: Dr. Pat Cawley will report on the status of the MUSC Medical Center.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 7. Resolution for the Refinancing of the Medical University Facilities Corporation Central Energy Plant (MUFC CEP).

<u>Statement:</u> A resolution will be presented regarding the refinancing of the MUFC CEP.

Recommendation of Administration: That the resolution be approved.

Board Action:

Item 8. MUSC Medical Center Financial and Statistical Report.

<u>Statement:</u> Mr. Steve Hargett will present the financial and statistical report for the MUSC Medical Center.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 9. Report on Quality and Patient Safety.

Statement: Dr. Barton Sachs will present a report on Quality and Patient Safety.

Recommendation of Administration: That the report be received as information.

Board Action:

Item 10. Report of the Vice President for Medical Affairs and Dean, College of Medicine.

Statement: Dean Pisano will present a report.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 11. Update on MUSC Physicians.

Statement: Dr. Phil Costello will report on MUSC Physicians activities.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 12. Legislative Update.

Statement: Mr. Faulkner/Sweatman will present an update on legislative issues.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 13. Other Committee Business.

CONSENT ITEM FOR APPROVAL:

Item 14. Medical University Hospital Authority Appointments, Reappointments and Delineation of Privileges.

CONSENT ITEMS FOR INFORMATION:

<u>Item 15.</u> <u>Medical Executive Committee Minutes.</u>

Item 16. Medical Center Contracts and Agreements.

MEDICAL UNIVERSITY HOSPITAL AUTHORITY PHYSICAL FACILITIES COMMITTEE. CHAIRMAN: MR. WILLIAM H. BINGHAM, SR.

OLD BUSINESS:

NEW BUSINESS:

Item 17. Facilities Procurements/Contracts.

<u>Statement:</u> Mr. Dennis Frazier will present facilities procurements/contracts for approval.

Recommendation of Administration: That the facilities/contracts be approved.

Board Action:

Item 18. Project Update.

<u>Statement:</u> Mr. Dennis Frazier will present an update on various Medical Center facilities projects.

Recommendation of Administration: The report be received as information.

Board Action

Item 19. Other Committee Business.

CONSENT ITEM FOR INFORMATION:

Item 20. Facilities Contracts Awarded.

OTHER BUSINESS FOR THE BOARD OF TRUSTEES:

Item 21. Approval of Consent Agenda.

Statement: Approval of the Consent Agenda is requested.

Recommendation of Administration: That the consent agenda be approved.

Board Action:

Item 22. New Business for the Board of Trustees.

Item 23. Report from the Chairman.

Notes to the Interim Financial Statements

Balance Sheet: At 03/31/2013 and for the Year ended 6/30/2012

Assets:

Cash and cash equivalents increased \$9.4 million to \$42.6 million from June 30th, 2012. The increase is a result of several factors from recent performance. March, 2013 was a record collection month for the Patient Financial Services, \$7.7 million in Medicaid managed care graduate medical education payments were received on March 29th, and the HUD debt service payments are now approximately \$300k per month less than pre-refinancing amounts.

Net patient accounts receivable has increased \$3.1 million from June 30, 2012. The case mix index (an indication of patient acuity) is up for the first nine months of FY 13 (1.7942 versus 1.7566) when compared to the prior year average. March's case mix increased slightly to 1.7889 from February's 1.788. CMI for the month of March, FY '12 was 1.8627. Year to date collections are running 99.3% of net patient revenue, compared to the 99.4% collection rate for all of last fiscal year.

Other Current Assets increased by \$14.3 million from 6/30/12 driven mainly by increases in prepaid maintenance contracts (IT and radiology related), payroll related insurance, and Medicaid uninsured program (DSH) a/r.

Liabilities:

As of March, 2013 Current Installments of Long-Term Debt include \$13.1 million HUD related debt and \$1.7 million for debt related to the Central Energy Plant. Current Installments of Notes Payable relate to Bank of America capital loan program for ART equipment. Once this note payment is made, a small final payment of approximately \$70,000 due six months later remains.

Overall, post December refinancing date, HUD related long term debt (net of deferred issuance costs) decreased \$52,000,000. Prior to the December refinancing, principal was paid semi-annually, under the new debt structure, principal is paid monthly. Total long term debt (including current portion) has declined \$65.4 million since June.

The decrease in other accrued expenses is a result of payment of accrued interest (reduction) and eliminating the accrued interest payable as part of the debt refinancing in December.

MEDICAL UNIVERSITY HOSPITAL AUTHORITY Notes to the Interim Financial Statements

Statement of Revenues, Expenses and Changes in Net Assets: For the nine months ended March 31, 2013 and 2012

Operating Revenues:

Net patient revenue is up 2.71% from the same period last year. Inpatient census is up less than 1% compared to last March – driven by an increase in Institute of Psychiatry volume. E R visits are up 5.3% as the charging issues resulting from the implementation of the Epic ED electronic medical record in November have been corrected. Operating room cases are up 1.8%. Transplant cases are down 16% compared to last year. MRI procedures are down 5.6% (one machine temporarily out of service) while CT procedures are up slightly. Outpatient visits are up almost 1%. Average case mix index (indicator of patient acuity) decreased from 1.86 to 1.79 when compared to the same period last year. The Medicare length of stay at 6.2 days is down 0.2 days compared to same period last year.

On a volume adjusted basis (adjusted discharges) net patient revenue is up 1.8% at \$17,479 per case. This is a result of an increase in acuity for the year and surgical cases.

Operating Expenses:

When compared to the same period last fiscal year salaries and benefits increased \$7 million (2.2%). Staffing has increased by 58 fte's for EPIC, while volume and new services are driving the remaining increase.

Services and supplies are up 6.9% compared to last year. The increase in the commitment for the Dean of the College of Medicine (\$9.75 million YTD increase), shared services utility costs from MUSC, equipment operating leases, and Epic system conversion costs (up \$4 million) are responsible for the increase.

Depreciation and Amortization costs are up 2.1% year over year driven by increased capital expenditures related to Epic ambulatory project.

Non Operating Expense

Interest expense is down \$3.8 million (20%) based on lower long-term debt balances and interest rate reduction.

MEDICAL UNIVERSITY HOSPITAL AUTHORITY Notes to the Interim Financial Statements

Budget Comparison:

As of March, 2013 MUHA's net income is at budget. The operating margin is 2.31% compared to 3.41% budget.

Net patient service revenues are below budget by 2.1%, while operating expenses are 0.71% below budget. The favorable variance is less than expected due to unbudgeted Epic related costs.

Unusual and non-recurring items impacting current month earnings:

Implementation of GASB 53 – accounting and financial reporting for derivative instruments occurred in fiscal 2010. While this does not have an immediate impact on the income statement, the negative value of the interest rate hedge associated with the central energy plant financing is reflected on the balance sheet in the asset section as a deferred outflow and in the long-term debt section titled "Derivative Instruments". The negative balance of \$3 million at 03/31/13 is down slightly from 6/30/12.

On December 19, 2012 the 2004 HUD debt was refinanced resulting in substantial savings in interest expense. Long term debt was reduced when funds in the debt service reserve and other accounts of approximately \$45 million were made available to reduce principle. Interest rate is fixed at 2.94% and amortization schedule was not extended.

FACILITIES HOSPITAL AUTHORITY NEW LEASE FOR APPROVAL

May 16, 2013

DESCRIPTION OF NEW LEASE: This lease agreement is for 7,629 square feet of clinical space located at 1145 Johnnie Dodds Boulevard. The purpose of this lease is to provide space for the Therapeutic Services, Physical Therapy/Occupational Therapy in the Mount Pleasant Area. The cost per square foot for this lease is \$23.00. The monthly rental rate will be \$14,622.25, resulting in an annual rent amount of \$175,467.00. Rent shall increase 2% annually.

Build-out costs are expected to be included in the rental amount. An additional estimated \$50,000 in additional costs shall be paid by MUHA separate from the lease agreement for IT installation, wiring and security.

Polices (Consent)	NEW – Immunization Provided in MUHA Ambulatory Pharmacies C015 – Determination of Brain Death C087 – Blood Product Administration C103 – Electrolyte: Magnesium C133 – Adult Enteral Feeding Tubes C157 – Pressure Ulcer C134 – Medication Security in Non-Pharmacy	Approved
GME Report	Dr. Clarke provided a GME update on match day.	Accepted as information
Hospital Update	Chris Rees provided a mortality index update. Approximately 30% of quality goal is mortality. Mortality index for AAMC avg, MUSC and Top 25 for CY 2012 reviewed. Mortality index FYTD 2013 by UHC Service Line shows area for improvement. Individual ranked service lines data discussed. Quality Assurance/Process Improvement (QAPI) plans have been created for DDC (identified problem – during FY 2012 the UHC GI service line ranks 100 out of 125 hospitals for mortality index), Heart and Vascular (identified problem – during FY 2012 the UHC cardiology service line ranks 72 out of 125 hospitals for mortality index), MACC (identified problem – during FY 2012 the UHC general surgery service line ranks 64 out of 125 hospitals for mortality index).	Accepted as information.
Hand Hygiene	Linda Formby presented hand hygiene compliance for February 2013 which is 87.3%. Service line compliance rates trend from 97.9% to 77.3%, and occupational compliance rates trend from 100% to 83%. Housewide hand hygiene compliance for Jan 12 – Feb 13 reviewed. Outpatient clinics hand hygiene compliance for February 2013 which is provided by patient feedback reviewed. Brian Sloan presented improvement action plan for DDC hand hygiene which includes direct observation, inter/resident orientation, infection control rounding, staff re-education and increased staff accountability. Nancy Tassin presented MSK hand hygiene improvement plans. Joint Replacement Unit's plan is all staff members are mandated to submit at least three audits per month; all new staff will be monitored and coached by their unit preceptor to "hardwire" hand hygiene into practice; all nurses will stock the medication cart prior to their shift to avoid multiple in and out of patient rooms and decrease likelihood of failure to comply with hand hygiene; and	Accepted as information.

		Approved.	Approved	Accepted as information.	2 nd review.	
the unit will start using the code word "genie" to remind staff of hand hygiene. 10W's plan includes meeting with infection control to determine best strategy moving forward, all staff members are mandated to submit at least three audits per month; encourage staff to announce to the family and patient they are washing their hands; and elicit help from our interdisciplinary teams.	Deferred Deferred	Linda Formby presented C166 – Influenza Vaccine policy. Change is all personnel will be required to receive influenza vaccination before reporting to active duty or during a designated time frame annually. Personnel who do not receive the vaccination by the designated date or otherwise qualify for an authorized exemption because of medical contraindication or religious beliefs will be relieved of employment or volunteer duties, and may not continue academic pursuits. David McLean, senior healthcare counsel, stated this type of policy has been tested and has held up. Impact should be very minimal.	Mo Sheakley presented the changes to the Medication & IV Infusion Administration policy. The revisions expands the medication administration allowable task for CMAs (Certified Medical Assistants) and adds pancreatic enzymes to list of allowable beside items on 8E and 8W only in conjuction with their self admin function.	Heather Kokko encouraged everyone to let everyone know about MUSC outpatient pharmacies.	Dr. Habib presented the standards of communication policy. Policy includes standards of outpatient visits; standards of invasive diagnostic and therapeutic services; standards for non-invasive diagnostic and therapeutic services, standards for inpatient care; and standards for emergency department care. Will take time and effort to get to this level.	The next meeting of the Medical Executive Committee will be Wednesday, April 17, 2013 at 7:30am in 628CSB.

\$224,318.00

CH Sterile Processing

Provide architectural and engineering services for planning and design layout and equipment scheme.

MEDICAL UNIVERSITY OF SOUTH CAROLINA

REGULAR AGENDA

Board of Trustees Meeting Thursday, May 16, 2013 101 Colcock Hall

Members of the Board of Trustees

Thomas L. Stephenson, Esquire, Chairman

Dr. James E. Wiseman, Jr., V-Chairman

Dr. Stanley C. Baker, Jr.

Mr. William H. Bingham, Sr.

Dr. Cotesworth P. Fishburne, Jr.

Mr. William B. Hewitt

Dr. Harold W. Jablon

Dr. Donald R. Johnson II Dr. E. Conyers O'Bryan, Jr.

Dr. Thomas C. Rowland, Jr.

Mr. Charles W. Schulze

The Honorable Robin M. Tallon

Dr. Charles B. Thomas, Jr.

Trustees Emeriti

Mrs. Margaret M. Addison The Honorable Robert C. Lake, Jr. Mrs. Claudia W. Peeples Mr. Allan E. Stalvey

Item 1. Call to Order-Roll Call.

Item 2. Secretary to Report Date of Next Meeting.

Regular Meeting: Friday, August 9, 2013

Item 3. Approval of the Minutes of the Regular Meeting of MUSC Board of Trustees of April

11, 2013.

Board Action:

RECOMMENDATIONS AND INFORMATIONAL REPORTS OF THE PRESIDENT

OLD BUSINESS:

NEW BUSINESS:

<u>Item 4.</u> <u>General Informational Report of the President.</u>

Statement: Dr. Greenberg will present a general report.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 5. Other Business.

RESEARCH AND INSTITUTIONAL ADVANCEMENT COMMITTEE. CHAIRMAN: DR. COTESWORTH P. FISHBURNE, JR.

OLD BUSINESS:

NEW BUSINESS:

Item 6. General Report of the Associate Provost for Research.

Statement: Dr. Steve Lanier will report on research activities.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 7. General Report of the Vice President for Development.

<u>Statement:</u> Mr. Jim Fisher will give a general report on institutional advancement activities.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 8. Other Committee Business.

EDUCATION, FACULTY AND STUDENT AFFAIRS COMMITTEE. CHAIRMAN: DR. E. CONYERS O'BRYAN, JR.

OLD BUSINESS:

NEW BUSINESS:

Item 9. General Report of the Vice President for Academic Affairs and Provost.

Statement: A general report will be given by Dr. Mark Sothmann.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 10. Other Committee Business.

CONSENT AGENDA ITEMS FOR APPROVAL:

Item 11.	Conferring	of Degrees.

- Item 12. Changes in Faculty Senate Bylaws.
- Item 13. Faculty Appointments.
- Item 14. Changes in Faculty Status.
- Item 15. Endowed Chair Appointment.
- <u>Item 16.</u> <u>Master in Science in Oral Sciences Degree Program.</u>

FINANCE AND ADMINISTRATION COMMITTEE. CHAIRMAN: MR. CHARLES W. SCHULZE OLD BUSINESS:

NEW BUSINESS:

Item 17. Parking Rate Increase.

<u>Statement:</u> A parking rate increase will be presented for approval.

Recommendation of Administration: That the rate increase be approved.

Board Action:

Item 18. Financial Status Report of the Medical University of South Carolina.

<u>Statement:</u> Mr. Patrick Wamsley will report on the financial status of the Medical University of South Carolina.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 19. Financial Status Report of MUSC Physicians.

Statement: Ms. Gina Ramsey will report on the financial status of MUSC Physicians.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 20. Financial Status Report of MUSC Foundation for Research Development.

<u>Statement:</u> Ms. Deanne Lucas will report on the financial status of the MUSC Foundation for Research Development.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 21. Other Committee Business.

UNIVERSITY PHYSICAL FACILITIES COMMITTEE. CHAIRMAN: MR. WILLIAM H. BINGHAM, SR.

OLD BUSINESS:

NEW BUSINESS:

Item 22. Update on Projects.

<u>Statement:</u> Mr. Greg Weigle will present an update on Medical University of South Carolina facilities projects.

Recommendation of Administration: That this report be received as information.

Board Action:

Item 23. Other Committee Business.

CONSENT AGENDA ITEMS FOR INFORMATION:

Item 24. Facilities Contracts Awarded.

OTHER BUSINESS FOR THE BOARD OF TRUSTEES:

Item 25. Approval of Consent Agenda.

Statement: Approval of the Consent Agenda is requested.

Recommendation of Administration: That the consent agenda be approved.

Board Action:

Item 26. New Business for the Board of Trustees.

Item 27. Report from the Chairman.

BOARD OF TRUSTEES MEDICAL UNIVERSITY OF SOUTH CAROLINA RESEARCH AND INSTITUTIONAL ADVANCEMENT COMMITTEE MAY 16, 2013

Through April 22, 2013, the Medical University of South Carolina has received over \$55.2 million in new gifts and pledges.

Progress-to-date compares very favorably to our results for this same time period last year - \$42.1 million (31% ahead of last year's pace).

The following highlights reflect key accomplishments that have transpired since the April 2013 Board of Trustees meeting.

HOLLINGS CANCER CENTER

- Mr. and Mrs. Keith Wellin provided a \$1.5 million gift to establish the Wendy and Keith S. Wellin Head and Neck Cancer Clinic and the Dr. Betsy K. Davis Endowed Chair in Maxillofacial Dentistry.
- Hollings Cancer Center's signature fundraising event, Gourmet & Grapes, was held at The Sanctuary Hotel on Kiawah Island and raised over \$100,000 in support of the clinical trials program at the Hollings Cancer Center.
- Mr. and Mrs. Oliver R. Head made a \$10,000 gift to the Hollings Cancer Center Parker Patient Support Fund.

HEART AND VASCULAR

- Zeus Industrial Products contributed \$700,000 toward their pledge to support the Frank P. Tourville Cardiac Arrhythmia Center.
- The Center of Economic Excellence in Molecular Proteomics in Cardiovascular Disease received the final portion of the match from the State of South Carolina for \$221,500.

 Jill Chalsty was elected as the new chair of the Heart and Vascular Board of Directors. She has begun a reorganization of the board, establishing committees in both development and strategic planning. Jill and her husband, John (who sits on the Hollings Cancer Center Advisory Board), are major MUSC benefactors.

CHILDREN'S HOSPITAL

- In April, Nucor Steel held their 13th Annual Nucor Steel Golf Tournament. This year's tournament raised over \$300,000. Since its inception, this event has provided over \$3.3 million in philanthropy for the Department of Pediatrics.
- On March 20th, the Second Annual Circle of Champions luncheon raised \$121,000. This fashion show and luncheon is held during the Baker Motor Company Charleston Fashion Week.
- On April 21st, the Log-A-Load for Kids Program held their Clays for Kids Tournament generating over \$58,000.
- We received over \$54,000 from this year's Cooper River Bridge Run with the Bi-Lo Roundup Program generating \$30,000.

DEPARTMENT OF NEUROSCIENCES

- The Department of Neurosciences received \$250,000 from the Fullerton Foundation to support the creation of the Fullerton Foundation Stroke and Cerebrovascular Education and Training Center.
- Mr. and Mrs. J. Harper Beall made a \$50,000 gift to support the Alzheimer's work of Dr. David Bachman.
- The Department of Neurosciences also received \$30,000 from the Fullerton Foundation for the update and reprint of the Primer on Parkinson's disease.

COLLEGE OF HEALTH PROFESSIONS

 Dr. Lisa Saladin, Dean of the College, and her husband, Dr. Michael Saladin, a faculty member in the Department of Health Sciences and Research, made a deferred gift commitment of \$250,000 to the College of Health Professions.

DEPARTMENT OF MEDICINE

 The Department of Medicine has received \$242,366 in state matching funds for the Renal Disease of Economic Excellence and \$348,350 in state matching funds for the Inflammation and Fibrosis Research Center as a part of the South Carolina SmartState Program.

COLLEGE OF MEDICINE

- Rakesh and Brinda Chokshi contributed \$50,000 to establish the Rakesh and Brinda Chokshi Endowed Scholarship Fund within the College of Medicine.
- The College is in the silent phase of a \$10 million scholarship campaign. To date, approximately 40% of this goal has been raised. This campaign is expected to go public at the end of the year when 50-60% of the goal has been raised.

COLLEGE OF PHARMACY

- The Class of 2013 has raised \$27,570 toward the Building the Future of Pharmacy Campaign to name an area of the building for their class.
- The College will host a 50th reunion breakfast for the Class of 1963 on Thursday, May 16th, prior to the Golden Grad festivities.

ALUMNI AFFAIRS ACTIVITIES

- Golden Grads
 - Golden Grads' classes are planning for their homecoming during the week of Commencement, May 16-17, 2013. In addition to events

planned with Golden Grads as a whole, including a luncheon, dinner and commencement activities, representatives from the Office of Planned Giving have been invited to participate in Golden Grads events as well as development officers and deans from respective colleges.

College of Medicine Reunion

Recipients of the Distinguished Alumnus Awards were: Drs. John P.
 Sutton ('63) of Seabrook Island and Mark Braunstein ('74) of Atlanta,
 GA. Dr. Stephen Schabel, of Charleston, received the Honorary
 Alumnus Award.

College of Medicine Newsletter

The College of Medicine Newsletter was emailed to alumni in April. The average open rate was 34.5%, while the national average is 25%. The average click-through rate (number of people who actually clicked on the link that opened the news article) was 11.83% compared to the industry standard of 1.7%.

License Plates

 We are pleased to announce the South Carolina Department of Motor Vehicles and the South Carolina Highway Patrol have approved the MUSC license plate. The license plates were made possible through a generous gift from Dr. Mark Beard, '95 DMD. All future profits from the sale of the MUSC license plates will benefit students in the form of scholarships.

FEASIBILITY STUDY

- Our external consultants, Marts & Lundy, completed the capital campaign Feasibility Study for the proposed new Children & Women's Hospital. The study consisted of 30 face-to-face interviews, an online survey of over 1,100 donors and prospects, and an electronic wealth screening of more than 2,000 potential supporters. A summary of their findings follows:
 - 1. While the Children's Hospital Fund Board is extraordinarily enthusiastic and energized, few members expressed an ability to

influence truly significant gifts – such as, \$35 - \$50 million naming opportunities. Through the interviews, while many indicated they would be willing to serve in the campaign effort, few indicated that they would make \$7-figure leadership gifts.

- 2. Immediate attention for the next 18 24 months must focus on the six prospects identified as having the potential for a naming gift in the \$35 \$50 million range.
- 3. Individual major donor prospects will require additional cultivation. Additionally, other major gift prospects must be identified.
- 4. We will focus on the above three tasks in hopes of being in position to consider a campaign 24 30 months from now.

The Medical University of South Carolina

Direct Expenditures on Federal Grants and Contracts (By Responsibility Center)
For the 9 Month Period Ending March 31, 2013

Administration	442,770
Centers of Excellence	5,106,560
College of Dental Medicine	2,359,595
College of Graduate Studies	783,962
College of Health Professions	1,198,471
College of Medicine	63,550,045
College of Nursing	2,059,208
College of Pharmacy	646,609
Library	822,419
Office of Sponsored Programs	7,068
	\$76,976,706

NOTE: The federal direct expenditures shown above were incurred by the University. The federal grant and contract revenue earned to cover these direct expenditures is \$76,976,706.

In addition to this federal grant and contract revenue, the University received \$23,818,346 in federal monies to reimburse it for Facilites and Administration (F+A) costs incurred to administer the above federal grants and contracts. \$23,715,277 of the F+A recoveries received is unrestricted which means the University can use it for any of its operating needs. The remaining \$103,069 represents the F+A recoveries on non-research federal grants and contracts This amount is required to be remitted to the State.

University direct federal expenditures \$76,976,706
Facilites and Administration costs \$23,818,346
Federal operating grants and contracts \$100,795,052

THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

NOTES TO THE FINANCIAL STATEMENTS

March 31, 2013

Note 1. Basis of Presentation

This financial statement provides summarized information for The Medical University of South Carolina (MUSC) and its affiliated organizations in discrete columns on the same page. The purpose of this financial report is to provide information that will be helpful to those who must make decisions about MUSC.

Note 2. State Appropriations

State appropriations revenue is prorated evenly over the twelve month period for which the funds are to be spent.

Note 3. Cash and Cash Equivalents - Restricted

Cash and cash equivalents - restricted include bond proceeds, the debt service reserve accounts, and the debt service fund accounts.

Note 4. Capital Assets, Net of Accumulated Depreciation

The University's capital assets, net of accumulated depreciation consists of the following:

Construction in progress	\$ 32,510,087
Land/Bldgs/Equipment/Accumulated depreciation	521,269,524
Capital Assets, Net of Accumulated Depreciation	\$ 553,779,611

Note 5. Construction in Progress

Construction in progress consists of the following projects and expenditures to date and is included in Capital Assets, Net of Accumulated Depreciation on the Statement of Net Assets.

	J	un 30, 2012 Balance	Fis	cal Year 2012 Additions	 Mar 31, 2013 Balance

Note 6. Deferred Revenue

The University's deferred revenue consists of the following:

State appropriations	\$ 14,974,378
Grants and contracts	19,458,847
Student tuition and fees	10,947,816
Other	28,595
Total Deferred Revenue	\$ 45,409,636

THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

NOTES TO THE FINANCIAL STATEMENTS

March 31, 2013

Note 7. Long Term Liabilities

The University's long term liabilities consist of the following:

Obligations under capital leases	\$ 67,098,762
Higher Education Revenue bond payable	33,625,000
State Institution bonds payable	72,025,000
Premium on State Institution bonds payable	1,658,112
Energy performance note payable	5,150,157
Deferred loss on early retirement of bonds	(1,068,755)
Total Long Term Liabilities	\$ 178,488,276

Note 8. Comparison to Budget

The Comparison to Budget statement (page 3) includes only activity in the current funds. The Statement of Revenues, Expenses, and Changes in Net Assets (page 2) includes current funds, loan funds, endowment and similar funds, and plant funds.

MEDICAL UNIVERSITY OF SOUTH CAROLINA

CONSENT AGENDA

Board of Trustees Meeting Thursday, May 16, 2013 101 Colcock Hall

Members of the Board of Trustees

Thomas L. Stephenson, Esquire, Chairman Dr. James E. Wiseman, Jr., V-Chairman

Dr. Stanley C. Baker, Jr. Mr. William H. Bingham, Sr.

Dr. Cotesworth P. Fishburne, Jr.

Mr. William B. Hewitt

Dr. Harold W. Jablon

Dr. Donald R. Johnson II Dr. E. Conyers O'Bryan, Jr.

Dr. Thomas C. Rowland, Jr.

Mr. Charles W. Schulze

The Honorable Robin M. Tallon

Dr. Charles B. Thomas, Jr.

Trustees Emeriti

Mrs. Margaret M. Addison The Honorable Robert C. Lake, Jr. Mrs. Claudia W. Peeples Mr. Allan E. Stalvey

EDUCATION, FACULTY AND STUDENT AFFAIRS COMMITTEE CHAIRMAN: DR. E. CONYERS O'BRYAN, JR.

(APPROVAL ITEMS)

Item 11. Conferring of Degrees.

<u>Statement</u>: Approval is requested to confer degrees upon those candidates who, pending successful completion of all requirements for their degrees by the conclusion of the spring semester, have the recommendation of their college dean and faculty.

Recommendation of Administration: That the conferring of degrees be approved.

Board Action:

Item 12. Proposed Changes to the Faculty Senate Constitution and Bylaws.

<u>Statement:</u> Administration presents for approval modifications to the Faculty Senate bylaws regarding Senate election dates, to be effective May 16, 2013.

<u>Recommendation of Administration</u>: That the changes to the Faculty Senate Bylaws be approved.

Board Action:

Item 13. Faculty Appointments.

<u>Statement:</u> At the request of the Dean of the College of Medicine, administration presents the following faculty appointments:

College of Health Professions

Craig A. Veloza, Ph.D., as Professor in the Department of Health Professions, Division of Occupational Therapy, effective July 1, 2013

College of Medicine

Lucian V. Del Priore, M.D., (dual appointment) as Professor in the Department of Regenerative Medicine and Cell Biology, effective May 1, 2013

Dr. Del Priore's primary appointment rests in the Department of Ophthalmology.

Edward W. Trudo, Jr., M.D., as Clinical Associate Professor, in the Department of Ophthalmology, effective July 1, 2013

Recommendation of Administration: That these faculty appointments be approved.

Board Action:

Item 14. Changes in Faculty Status.

<u>Statement:</u> At the request of the Dean of the College of Medicine, administration presents for approval, the following changes in faculty status:

Eleanor K. Spicer, Ph.D., from Professor to Professor Emerita, in the Department of Biochemistry and Molecular Biology, effective July 1, 2013.

Recommendation of Administration: That this change in faculty status be approved.

Board Action:

Item 15. Endowed Chair Appointment.

<u>Statement:</u> At the request of the Dean of the College of Medicine, administration presents for approval the following endowed chair appointment effective May 16, 2013:

Patrick A. Flume, M.D., as the Powers-Huggins Endowed Chair for Cystic Fibrosis

Recommendation of Administration: That the Endowed Chair appointment be approved.

Board Action:

MUSC Board of Trustees Consent Agenda Page 3 May 16, 2013

Item 16. Master of Science in Oral Sciences Degree Program.

<u>Statement:</u> At the request of the Dean of the James B. Edwards College of Dental Medicine administration presents for approval the proposed Master of Science in Oral Sciences, effective May 16, 2013.

<u>Recommendation of Administration</u>: That the Master of Science in Oral Sciences Degree Program be approved.

Board Action:

PHYSICAL FACILITIES COMMITTEE CHAIRMAN: MR. WILLIAM H. BINGHAM, SR.

(INFORMATIONAL ITEMS)

Item 24. Facilities Contracts Awarded.

Statement: Facilities Contracts awarded will be presented to the Board of Trustees.

Recommendation of Administration: That this be received as information.

Board Action:

Medical University of South Carolina May 2013 Graduates

PROPOSED

Faculty Senate Bylaws

Article IV

A. Election of Officers

Election of the Officers for the upcoming year (October – September) will be held at the July meeting. In May the Governance Committee shall call for nomination of Officers from the members of the Faculty Senate (Senators and Alternate Senators). Any member of the Faculty Senate may nominate either another member of the Faculty Senate or himself or herself. All Senators are eligible to be slated regardless of time remaining on their current term unless a maximum of three terms has been reached. The Governance Committee will then draw up a slate of qualified individuals who agree to serve as President, Vice President, and Secretary. The Governance Committee shall oversee the voting process and report the results to the full Faculty Senate.

Faculty Senate Constitution

Article IV

Officers of the Faculty Senate: Election and Duties

The Officers of the Faculty Senate shall be the President, Vice President, and Secretary. Officers of the Senate are considered to be at-large Senators and do not stand for re-election to the Senate from their Electoral Unit in October even if their Senate term is scheduled to expire. If an Officer-Elect's term is not scheduled to expire when they become Officers at the October meeting, their Electoral Unit seat shall become vacant, and an Alternate Senator shall take over that representative role. The alternate position shall then be replaced according to standard procedures.

Article VII

Committees

A. Executive Committee

The Executive Committee shall be composed of one Senator from each of the seven Electoral Units, the Officers of the Faculty Senate, and the immediate Past President of the Faculty Senate who shall serve as a non-voting, consultative member. The Executive Committee member from the respective Electoral Unit shall be elected by the Senators of that unit as stipulated in the Bylaws. The Officers-Elect (President-Elect, Vice President-Elect and Secretary-Elect) of the Faculty Senate shall be non-voting members of the Executive Committee from July through September. The Executive Committee may go into executive session when discussing sensitive issues as permitted by state law.

Current:

Article IV

A. Election of Officers

Election of Officers for the upcoming year (October – September) will be held at the October meeting. The Governance Committee shall call for nomination of Officers from the members of the Faculty Senate (Senators and Alternate Senators) after the election results become available. First Appointment to MUSC: Rank: Assistant Professor Date: 1993

Proposal to the South Carolina Commission on Higher Education

1. Cover Page:

a. Proposing Institution:

Medical University of South Carolina

b. Program Title, Concentrations, Options and Tracks:

Master of Science (M.S.) in Oral Sciences. There will be two tracks within the MS in Oral Sciences program: Thesis and Non-thesis. Thesis track students will complete a minimum of 30 credit hours of coursework including at least 10 credit hours of independent research. Students in the non-thesis track will be required to take additional didactic course work in lieu of completing a full research project but will be required to complete a condensed research project and present their findings in an oral presentation and in writing. Both tracks will require oral qualifying examinations.

c. Submission Date:

May 15, 2013

d. Program Contact:

Keith L. Kirkwood, D.D.S., Ph.D. Associate Dean for Research Professor and Chair of Craniofacial Biology Professor of Microbiology and Immunology Director, MUSC Center for Oral Health Research Diplomate, American Board of Periodontology

Raymond S. Greenberg, M.D., Ph.D.
President
Medical University of South Carolina

2. Classification:

a. Program Title:

Master of Science in Oral Sciences

b. Concentrations, Options and Tracks:

There will be two tracks within the MS in Oral Sciences program: Thesis and Non-thesis. Thesis track students will complete a minimum of 30 credit hours of coursework including at least 10 credit hours of independent research. Students in the non-thesis track will be required to take additional course work in lieu of completing a full research project but will be required to complete a condensed research project and present their findings in an oral presentation and in writing. Both tracks will require oral qualifying examinations.

c. Academic Unit:

Department of Craniofacial Biology, College of Dental Medicine, Medical University of South Carolina

d. Designation, Type and Level of Degree:

Successful completion of the proposed program will lead to a Master's of Science degree in Oral Sciences.

e. Proposed Date of Implementation:

Fall 2015

f. CIP Code:

51.0503 – Oral Biology and Oral and Maxillofacial Pathology

g. Site:

The MS in Oral Sciences program will be offered on the Medical University of South Carolina campus in Charleston, SC

h. The program does not qualify for supplemental Palmetto Fellows Scholarship or LIFE Scholarship awards.

i. Delivery mode:

The program will be offered through traditional instruction.

3. Institutional Approval:

The MS in Oral Sciences program proposal has been approved by:

MUSC Deans' Council January 13, 2013 MUSC Vice Presidents: January 23, 2013

Board of Trustees: May 16, 2013

4. Purpose:

The MUSC Master's of Science in Oral Sciences program has three main goals. The first purpose of the overall program is to train personnel for careers in basic, translational and clinical research methodologies in the field of oral health. The other goals of this program is to complement existing training opportunities that currently reside in Center for Oral Health Research (COHR) under the T-COHR (Training in Craniofacial and Oral Health Research) (see Justification below) and well as provide new programing in order to help establish a stable pipeline into both the PhD in Craniofacial Biology program and the DMD/PhD (Dentist Scientist Training Program) in the Colleges of Graduate Studies and Dental Medicine, respectively.

With this MS in Oral Sciences program, there is an opportunity to recruit foreign dentists (having DDS or BDS degrees) into this program for basic and translational research training. These potential trainees would be able to apply for both programs in the future increasing existing program candidate pools. Also, this program will provide an opportunity for students to receive additional training and experience in oral health-related research before or after submission of an application to dental school at MUSC or other U.S. institutions. Foreign dental graduates with an MS in Oral Sciences will have a competitive edge in earning faculty positions in their home countries. Likewise, graduates who remain in the U.S. will likely be competitive for acceptance in additional programs including Ph.D. programs and dental school.

5. Justification:

Post matriculation of the MS in Oral Sciences program, students will have a variety of options for employment within the State. The following bulleted job opportunities and information was obtained from the U.S. Bureau of Labor Statistics 2012-13 Occupational Outlook Handbook http://www.bls.gov/ooh/.

- Employment of biological technicians is projected to grow 14 percent from 2010 to 2020, as fast as the average for all occupations. Continued growth in biotechnology and medical research is expected to increase demand for these workers.
- Employment of microbiologists is expected to increase by 13 percent from 2010 to 2020, about as fast as the average for all occupations. More microbiologists will be needed to apply knowledge from basic research to develop biological products and processes that improve our lives.
- Employment of biomedical engineers is expected to grow by 62 percent from 2010 to 2020, much faster than the average for all occupations. Biomedical engineers typically need a bachelor's degree in biomedical engineering from an accredited program to enter the occupation. Alternatively, they can get a bachelor's degree in a different field of engineering and then either get a graduate degree in biomedical engineering or get on-the-job training in biomedical engineering.
- Employment of biological technicians is projected to grow 14 percent from 2010 to 2020, as fast as the average for all occupations.
- Employment of medical laboratory technicians is expected to grow by 15 percent between 2010 and 2020, about as fast as the average for all occupations.
- Employment of biochemists and biophysicists is projected to increase by 31 percent from 2010 to 2020, much faster than the average for all occupations.
- Employment of dentists is expected to grow by 21 percent from 2010 to 2020, faster than the average for all occupations. Dentists will continue to see an

increase in public demand for their services as studies continue to link oral health to overall health.

The MS in Oral Sciences is thematically aligned with the Medical University of South Carolina (MUSC) which is a public institution of higher learning the "purpose of which is to preserve and optimize human life in South Carolina and beyond. The university provides an interprofessional environment for learning and discovery through education of health care professionals and biomedical scientists, research in the health sciences, and provision of comprehensive health care".

The MS in Oral Sciences directly aligns with the education of students to "become caring, compassionate, ethical, and proficient health care professionals and creative biomedical scientists". This later part is the central mission of the program and thus directly supports the University mission relative to creating biomedical scientists. The MS of Oral Sciences program also aligns with multiple other mission statements relative to research and interprofessionalism, diversity, and economic development for the State of South Carolina.

The Department of Craniofacial Biology was established in 2008 and currently provides administrative housing for the MUSC Board of Trustee-designated MUSC Center for Oral Health Research (COHR). Currently, the COHR provides the umbrella for research services as well as training for PhD, DMD/PhD, and postdoctoral fellows through T-COHR (Training in Craniofacial and Oral Health Research). In addition, T-COHR currently supports an undergraduate research experience during the summer through the MUSC Summer Undergraduate Research Program (SURP).

There are no similar programs offered by institutions of higher education in the State of South Carolina. Similar programs, however, are offered in other academic health centers/Schools of Dentistry in many other states. The closest similar program is offered at University of North Carolina at Chapel Hill. There are no other similar programs in states in the Southeast that have dental schools, including Alabama, Georgia, Virginia, and Florida. Other dental schools that offer a Masters of Science in Oral Sciences include the University at Buffalo, University of Missouri-Kansas City, University of Washington, New York University, Temple University and Boston University.

The proposed MS in Oral Sciences program will augment and strengthen existing academic programing within the T-COHR program and College of Dental Medicine (CDM). While T-COHR provides DMD/PhD, PhD and postdoctoral training as well as short-term summer undergraduate training, there is not a MS program. The Master of Science in Dentistry (MSD) program is restricted to dentists enrolled in clinical specialty training and is therefore not open to students with bachelor's or foreign dental degrees unless they are also accepted and enrolled in a dental clinical specialty e.g. periodontics or orthodontics.

CDM is one of six colleges within MUSC, an academic health center in the State of South Carolina, and has active collaborations with the Colleges of Medicine, Nursing, and Graduate Studies with joint academic and research programs. In addition to the courses offered within CDM, the MS in Oral Sciences will take advantage of some excellent courses offered through the College of Graduate Studies and offer research opportunities through other MUSC colleges for partial fulfillment of requirements of the proposed program.

6. Admission Criteria:

All applicants must have completed a Bachelor's degree or its equivalent, or a doctorate degree from an institution of higher education. Applicants are expected to have a cumulative GPA of at least 3.0 (on a 4.0 scale) and have taken coursework in biology and/or biological engineering. All applicants must also take the Graduate Record Examination (GRE) and have a combined score (verbal + quantitative) above the 65th percentile.

Official original records of academic achievement (transcript, diploma, degree, certificate, and/or official statements showing the class or quality of marks compared with those possible to achieve) are required all institutes of higher education attended.

Academic records from foreign institutions must be provided in English and must be certified or validated as true by a university or government official.

Foreign applicants whose native language is not English will be required to submit a score report of the Test of English as a Foreign Language (TOEFL) to demonstrate proficiency in English. Exceptions may be made if a student has attended a United States institution for an extended period of time. Scores must be sent directly from the Education Testing Service (ETS) to the university.

7. Enrollment:

The duration of the MS in Oral Sciences program is anticipated to be 24 months. This time is adequate for candidates to complete the requirements for the MS in Oral Sciences program including the completion of a research project and writing and defense of an original thesis. The program will only be offered to students who have obtained a bachelor's degree with coursework in the field of biology or a dental degree (DDS, DMD or BDS).

The proposed program will be fully operational within a two-year period with an expected average of 4-6 graduates per year. This number is estimated based on enrollment in other MS programs at MUSC and the space available for additional students in the currently offered courses. It is expected that approximately one third of the students accepted to the program will have a foreign dental degree, such as a BDS, and will utilize the program to increase the chance of admission to a US DMD or DDS program. As the number of faculty the department increases and becomes more nationally and internationally recognized, it is anticipated that the number of graduates will increase.

Table A – Projected Total Enrollment

Assumptions made for the following projections:

- 1. No students will transfer in from other programs.
- 2. *2 students will be accepted in the first year the program is offered.
- 3. **3 students will be accepted the second year the program is offered.
- 4. All students will graduate after 24 months (six semesters) in the program.
- 5. ***5 students will be accepted in the third year the program is offered.
- 6. ****6 students will be accepted the fourth year the program is offered.

PROJECTED TOTAL ENROLLMENT						
YEAR	FALL		SPRING		SUMMER	
	Headcount	Credit Hours	Headcount	Credit Hours	Headcount	Credit Hours
2014-15	2*	18	2	18	2	18
2015-16	5**	45	5	45	5	45
2016-17	8***	72	8	72	8	72
2017-18	11****	99	11	99	11	99
2018-19	11	99	11	99	11	99

8. Curriculum:

The MS in Oral Sciences curriculum will require successful completion of a minimum of 30 credit hours of coursework and research for successful completion of the degree. All students will be required to register for 9 credit hours of coursework each semester they are enrolled in the program. The majority of the coursework is currently offered by CDM (applicable course numbers of available courses indicated below; new/proposed courses are in **bold**) and there is room available in the classes for additional students in the MS in Oral Sciences Program. Students will be able to select either a thesis or non-thesis track. Students electing to enter the thesis track will be required to complete at least ten credit hours of Thesis Research (new course described below), while students choosing the non-thesis track will be required to complete at least 22 credit hours of didactic coursework.

All students will be required to register for Topics in Craniofacial Biology (CRFB-745) and Craniofacial Biology Seminar Series (CRFB-747) each semester. Both of these courses are currently offered within the College and have space available for additional registered students. In addition, students in both thesis and non-thesis tracks will be required to complete courses in research design (Introduction to Research Methodologies, CRFB-901), research ethics (offered through the MUSC College of Graduate Studies, CGS-710) and biostatistics. There is currently no biostatistics course available in the College for MS students, so a new course will be designed to include with the program. The new course will be a 2-credit course offered in the fall of each year entitled "Biostatistics for Dental Research" (CRFB-90x). The course will be taught by a faculty member with an advanced degree in biostatistics and will include lectures on the appropriate use of statistical analysis in oral research methodologies including in vitro studies, in vivo animal models and clinical research. The course will also be available to DMD students and MSD students as an elective and students will receive merit grades.

The MS in Oral Sciences program will include three foundational courses already offered in the College, Cell & Molecular Biology of Mineralized Tissue (CRFB-801), Oral Immunobiology (CRFB-624) and Biochemical Aspects of Oral Biology (CRFB-902), to provide enrolled students with a broad background in the biological sciences and oral biology. Students selecting the thesis track will be required to take and pass two of the three foundational courses while students selecting the non-thesis track will be required to complete all three foundational courses.

Students in both the thesis and non-thesis tracks will be encouraged to rotate through at least two laboratories during their first semester before selecting a research mentor. All students will be required to identify a research mentor and research project at the

beginning of their second semester in the program. The College does not currently have a course offered to that would cover the optional laboratory rotations so a new course will be designed for this purpose (**CRFB-91x**). The new course will be a 3 credit course available in the fall of each year. Students will be required to submit a brief description of the research questions addressed during the two rotations and complete an evaluation of the rotation experience at the end of the semester. The course will be graded as pass-no pass and the selected mentors will submit grades for each rotation to the program director.

Once the student has selected a mentor for their research project, non-thesis track students will be required to register in CRFB-900, Independent Research and will complete a research project. The students will be required to submit a written summary of their research project to the graduate committee and present their work to the faculty. Students choosing the thesis track will register for a new course to be created (**CRFB-99x**; Thesis Research). Both courses will be graded as pass-no pass by the research advisor chosen by the student.

Elective courses will be selected upon discussion with the student's graduate committee, and typically cover the area of research pertinent to the student's thesis work or specific research interests. Before completion of the second semester, all students will be required to select a graduate examination committee and pass an oral qualifying exam covering the general oral sciences. Students choosing the thesis option will be required to write and defend a thesis describing the independent research that they performed prior to completion of the program. Students choosing to complete the non-thesis option will be required to submit a written report of their research project to the graduate examination committee and present their research findings orally to the program faculty in the last semester of the program.

New Course Descriptions:

CRFB-910 Laboratory Rotation, 3 credit hours, fall

Students will rotate through 2 independent research labs of their choosing during the semester to identify a research mentor for their independent or thesis research project. Students will be required to write a brief summary of their research at the end of each 6 week rotation and will be allowed to evaluate the laboratory experience. Mentors will submit a pass/no pass grade and evaluation of the student at the end of each rotation. Grades will be pass/no pass and will be determined by averaging the two mentor evaluations.

CRFB-90x Biostatistics for Dental Research, 2 credit hours, fall

This course will introduce students to the use of biostatistics in the area of dental research. Topics will include how to use statistical methods during experimental design and data analysis as well as the limitations of commonly used statistical methodologies. Statistical methods covered will include those most frequently used in both basic and clinical research methodologies. The course is open to all MS, MSD, DMD and PhD students. The course will be merit graded.

CRFB-99x Thesis research, 1-9 credit hours, fall/spring/summer

MS students who have chosen the thesis-track will be allowed to register for this course after successful completion of their oral qualifying exam when they being their formal thesis research project. The course will be pass/no pass graded by the chosen research mentor.

9. Assessment:

In non-merit graded courses such as research and laboratory rotations, mentors/research supervisors will complete and evaluation form detailing the student's abilities in several areas such as knowledge in the area of research, participation in laboratory meetings and discussions, ability to communicate research questions and methodologies, and general work ethic at the end of each semester. The results of the

evaluation will be shared with the student to allow for improvement in the future. Students will also evaluate mentors/research supervisors at the end of rotations. These evaluations will be confidential but will provide program administrators to identify mentors that do not meet the expectations of the program. The anonymous evaluations will also be made available to future students to assist with their selection of appropriate laboratories for completion of their thesis research or independent studies.

Oral qualifying exams will be graded by completion of a table by each committee member detailing whether the student fails to meet, meets or exceeds expectations in the areas being tested. The evaluation will include whether the student responds adequately to questions in their chosen research area, demonstrates knowledge of the field, can critically evaluate the research in the field, and can clearly communicate their ideas to others.

The oral defense for students choosing the thesis-track will be evaluated similarly to the oral qualifying. In addition to the review criteria listed above, the student will be rated as does not meet, meets or exceeds expectations on their ability to respond to questions regarding their project and can respond to challenges professionally.

The MS in Oral Sciences program will be assessed regularly through several methods. For merit-graded courses, all students will be given the opportunity to complete an E-value evaluation at the end of the course. The evaluations will include metrics such as instructors, quality and adequacy of instructional materials provided, clarity of presentations, fairness of tests/assignments, and clarity of course objectives. The data collected from these evaluations will be used by the MS in Oral Sciences curriculum committee (detailed below) to modify and improve courses for subsequent years. Comments on instructor quality will be forwarded to the appropriate instructors and course directors.

A curriculum committee will be formed to assess the quality of individual courses within the program, approve new courses prior to their implementation, and modify the program requirements if necessary based on evaluations and outcomes. The committee will consist of seven faculty members with representatives from both basic and clinical research areas within the College of Dental Medicine, the Education Specialist employed by the College, and at least one faculty member from the College of Graduate Studies.

In order to assess the effectiveness of the program in achieving its goals, students will be asked to provide administrative staff with a non-MUSC, permanent e-mail address (such as Gmail or Yahoo) at the time of acceptance. This e-mail address will be used to communicate with graduates after completion of the program. Students will be asked their goals following completion of the program at the time of admission to allow individual assessment of program success. Success for each student may be defined as acceptance to an accredited DMD or DDS program, acceptance to a PhD program, full-time employment in dental research.

For students whose goal is to obtain a DMD or DDS degree, students will be asked to provide the program administration with the total number of dental school applications submitted, DAT scores (or an increase in prior DAT scores), number of interviews at dental schools, number of offers of acceptance. Later data that will be collected could include successful completion of a dental degree, participation in dental research,

membership in dental societies, and current employment (e.g. private dental practice, academic faculty, alternate career in dental research, specialty training).

Students whose goal is to obtain a PhD will be asked for similar information regarding graduate school applications, interviews, GRE scores and acceptance. Longer term data will include postdoctoral positions offered/accepted, grant funding status, and obtaining employment in dental education or oral health-related research.

Success of the program for students not desiring to pursue an advanced degree will be monitored on an individual basis with regards to achievement of their goal(s) at the time of matriculation into the program. Students may be interested in pursuing a career in oral health-related research, but not in obtaining an advanced degree and success will be defined as achievement of that goal upon graduation and into the future.

Recent program graduates will also be asked to complete a brief survey covering their opinion on the program. Students will be asked to comment on the amount of didactic coursework required, the topics and appropriateness of the core curriculum, availability of appropriate mentors and electives, and the oral qualifying and defense (thesis track only) required by the program.

The above data regarding outcomes following completion of the program will be collected and the curriculum committee will use the results to determine if the current structure and focus of the program is adequate to allow students to achieve success after graduation. If students identify gaps or overlaps in the core courses, we will work with the course directors to adjust the curriculum to minimize these areas. Students may also identify areas of interest that are not addressed in the core curriculum or available as electives providing the committee with the opportunity to develop additional courses that would be beneficial to the program and potentially other programs within the College. In addition to regular review of the curriculum and student success, all faculty participating in teaching of the core curriculum will attend an annual retreat jointly with the DMD and MSD program faculty within the college. This will provide opportunities for aligning the courses in all three curricula and provide continuing training in educational methods.

10. Faculty:

Table B - Faculty List

Faculty by Rank	Highest Degree Earned	Field of Study	Teaching in Field (Yes/No)	
Professor #1	Ph.D.	Oral Biology/Immunology	Yes	
Professor #2	Ph.D.	Cell Biology	Yes	
Professor #3	Ph.D.	Cell Biology	Yes	
Professor #4	Ph.D.	Biochemistry	Yes	
Professor #5	Ph.D.	Immunology	Yes	
Professor #6	Ph.D.	Biochemistry	Yes	

Associate Professor #1	Ph.D.	Microbiology	Yes
Associate Professor #2	Ph.D.	Biochemistry	Yes
Associate Professor #3	Ph.D.	Biomedical Engineering	Yes
Associate Professor #4	Ph.D.	Cell Biology	Yes
Associate Professor #5	Ph.D.	Biochemistry	Yes
Associate Professor #6	Ph.D.	Immunology	Yes
Assistant Professor #1	Ph.D.	Cell Biology/Mineralized Tissue Biology	Yes
Assistant Professor #2	Ph.D.	Cancer Biology	Yes
Assistant Professor #3	Ph.D.	Biochemistry	Yes
Assistant Professor #4	Ph.D.	Biostatistics	No
Assistant Professor #5	Ph.D.	Oral Biology	No
Assistant Professor #5	Ph.D.	Biomedical Engineering	No
Research Assistant Professor #1	Ph.D.	Biomedical Engineering	Yes
Research Assistant Professor #2	M.D.	Oral Pathology	No

All faculty necessary to implement the MS in Oral Sciences program are currently within the College of Dental Medicine faculty. Additional faculty are being sought by the College with research expertise in oral microbiology, mineralized tissue biology or biostatistics at this time to strengthen the research program within the College and University. While these new positions are not essential for initiation of the program, they will enhance the educational mission of the MS in Oral Sciences program in the future.

Any new faculty hires necessary for the program will be required to hold a professional degree (DMD, PhD, DMD/PhD, or MD/PhD) from an accredited institution and have experience in basic, translational or clinical oral health-related research. New appointees will be required to be fluent in both written and spoken English.

No changes in duties for faculty or administrative staff are expected following implementation of the MS in Oral Sciences program. The administrative staff currently handles the corresponding duties for the DMD/PhD and DMD program in the College and has sufficient staff to accommodate the additional students. Faculty are currently teaching the offered courses and no changes will be necessary to their allotted time for teaching relative to other duties.

The Institutional plan for faculty development will be based on the existing program. Faculty member time is allotted according to the needs of the didactic course component and will include time allotted for research activities, curriculum development, and

administrative duties such as mentoring. The University currently offers many activities for faculty development including seminars and interprofessional programs.

The Institutional definition of a full time equivalent (FTE) is a faculty position requiring at least forty hours per week of commitment.

11. Physical Plant:

The proposed MS in Oral Sciences program will not require any changes or additions to the physical plant in place at the Medical University of South Carolina, College of Dental Medicine. Adequate classroom space is already available and most of the courses included in the program are currently offered in the College. Additionally, the Administrative staff and office space currently in place for the DMD/PhD program within the College will support the new MS in Oral Sciences program.

12. Equipment:

The University and college currently operate sufficient equipment for the proposed MS in Oral Sciences program so no additions to equipment will be necessary for implementation of the program. Lecture halls, conference rooms, computer-equipped offices are currently available within the College of Dental Medicine for implementation of the program. Research facilities are available in the Center for Oral Health Research and mentors are provided with research space and equipment sufficient to conduct their studies that the students will have access to.

13. Library Resources:

The proposed MS in Oral Sciences program will not require any changes or additions in Library facilities already in place at the Medical University of South Carolina. The existing Library facilities offer both print and online journals and other publications appropriate and necessary for any scholarly activities anticipated. Regular innovations in Library technologies are anticipated but would be completed regardless of the addition of this program. Such innovations in Library technologies will only serve to enhance access to necessary scholarly works and reference materials to facilitate both student and faculty activities.

14. Accreditation, Approval, Licensure, or Certification:

The Medical University of South Carolina is fully accredited by the Southern Association of Colleges and Schools (SACS).

The proposed MS in Oral Sciences program is not designed to be linked to any certification or licensure program and as such, no certification or licensure will be obtained upon completion of the program.

15. Articulation:

The MUSC Center for Oral Health Sciences (COHR) has been on significant growth trajectory for the past five years. With the Dept. of Craniofacial Biology as the academic home, the Center currently administers over \$4,000,000 in federal grants for fiscal year 2013. Dental Schools in the US are often ranked by federal (NIH) research dollars. In the past several years, the College of Dental Medicine has gone from being unranked in NIH funding to now 23rd in the US amongst 64 dental schools currently conferring either a DMD or DDS degree. In addition, MUSC and Clemson University have an active collaborative relationship in the area of bioengineering through the MUSC-Clemson Bioengineering Program. Joint faculty positions and recruitments are part of this programmatic alignment. The CDM faculty actively collaborate with Clemson faculty on research projects, mentoring of students, and serve on students' thesis committees currently. Clemson students are already part of T-COHR (Training in Craniofacial and Oral Health Research). MS of Oral Sciences students will be allowed to take Clemson Bioengineering courses and work directly with Clemson faculty who conduct research in the areas of oral and craniofacial bioengineering. Finally, the dental school has forged a strong alliance with the Hollings Cancer Center at MUSC becoming a pivotal component of this NCI-designated center through support of the research services, internal administration, joint recruitments, and grants administration. Thus, the MUSC COHR is truly a campus-wide and statewide interdisciplinary and interprofessional center that fosters research and education in a highly interactive and collaborative environment.

16. Estimate of costs:

The MS in Oral Sciences program will be implemented with existing faculty and staff resources. The majority of the courses are currently offered in the College of Dental Medicine. Partial faculty and staff salary compensation is needed to fully commit and implement this program along with partial salary compensation for the program director.

^{*}Assumes 50% of students in-state and 50% of students out-of-state. For years with odd student numbers in Table A, the majority of the students are estimated to be in-state. Tuition numbers are based on full time tuition for MUSC MS in Biomedical Sciences 2012-2013.

MEDICAL UNIVERSITY OF SOUTH CAROLINA PROFESSIONAL SERVICES FOR REPORTING MAY 16, 2013

MUSC Indefinite Delivery Releases

MECA, Inc. \$38,000.00

Provide mechanical engineering services in support of the Deferred Maintenance - Waring HVAC project.

RMF Engineering, Inc.

\$14,900.00

Provide architectural and engineering services in support of the Basic Science Building 7th Floor Pathology Laboratory Renovation Project.

RMF Engineering, Inc.

\$17,200.00

Provide HVAC system analysis of 135 Cannon Street at the request of the customer.

S&ME, Inc. \$1,220.00

Provide asbestos air monitoring in conjunction with removal of asbestos-containing fireproofing on the seventh floor of the Basic Science Building.

S&ME, Inc. \$435.00

Provide asbestos bulk sampling and analysis of Colbert Education Center Elevators at the request of Occupational Safety.

MUSC 230s

DWG, Inc. Consulting Engineers

\$7,200.00

Provide additional design services in support of the Institute of Psychiatry Exhaust System project.

Stubbs Muldrow Herin Architects, Inc.

\$40,190.00

Provide architectural and engineering design services in support of the Institute of Psychiatry 1st Floor Rated Exit Enclosure and Fan Coil Replacement project.

ADC Engineering, Inc.

\$8,380.00

Provide surveying, civil engineering and landscape architecture design and permits for the construction of six asphalt parking spaces behind the College of Health Professional Building at 77 President Street at the request of the customer.

IDC Contracts

Stubbs Muldrow Herin Architects, Inc.

Provide architectural services under a small IDC contract on an as-needed basis throughout the campus. No project to exceed 50,000. Total small contracts not to exceed \$150,000 in past two years.

ADC Engineering, Inc.

Provide civil engineering services under a small IDC contract on an asneeded basis throughout the campus. No project to exceed 50,000. Total small contracts not to exceed \$150,000 in past two years.

Large Contracts

SAFEbuilt Carolinas Inc.

\$22,797.81

Provide special inspection services in support of the College of Nursing Floors 2 through 5 Renovations project.

SAFEbuilt Carolinas Inc.

\$10,708.28

Provide special inspection services in support of the Clinical Science Building Chiller Replacement project.

MEDICAL UNIVERSITY OF SOUTH CAROLINA CONSTRUCTION CONTRACTS May 16, 2013

MUSC Indefinite Delivery Releases

Huss, Inc. \$11,536.00

Replace plenum louver screens in support of the Drug Discovery Building project.

Allen, H.R., Inc. \$26,537.00

Modify existing chilled water system that serves the Bioengineering and Drug Discovery Buildings.

Huss, Inc. \$12,512.00

Replace plenum louver screens in support of the Bioengineering Building project.

Hitt Contracting \$79,850.00

Provide demolition in support of the Clinical Science Building 9th Floor Renovation project.

Abate & Insulate, LLC

\$682.00

Remove and dispose of abestos-containing transite fume hoods in support of the Basic Science Building 7th Floor Pathology Tissue Laboratory Renovations project.

Asbestos & Demolition Inc.

\$1,950.00

Remove and dispose of 1120 square feet of asbestos-containing floor tile and mastic in support of the 7th Floor Clinical Science Building Orthopedic Surgery Office Renovation project.

Abate & Insulate, LLC

\$643.00

Remove and dispose of flashing at the Bank Building at the request of the customer.

Bonitz Contracting & Flooring Group

\$1,363.79

Remove and replace 196 square feet of linoleum and 120 linear feet of cove base in the 2nd floor corridor of the Bioengineering Building at the request of the customer.

Abate & Insulate, LLC

\$893.30

Remove asbestos-containing material from Basic Science Building Room 730B at the request of Occupational Safety.

Bonitz Contracting & Flooring Group

\$2,148.22

Install 32 square yards of carpet tile and 270 square feet VCT and 240 linear feet of cove base in Rooms HE625 and HE626 of Clinical Science Building at the request of the customer.

Bonitz Contracting & Flooring Group

\$3,615.44

Remove and replace 64 square yards of carpet tile and 240 linear feet of cove base in Clinical Science Building Rooms HE708 D and E at the request of the customer.

Bonitz Contracting & Flooring Group

\$635.46

Install 84 square feet of sheet vinyl in the library elevators at the request of the customer.

Bonitz Contracting & Flooring Group

\$1,457.38
