

## Why Students Choose MUSC

1. MUSC, and most other hospitals affiliated with this program, support teaching environments for students.
2. All interns can attend “medical rounds” and observe medical procedures regardless of their concentration.
3. Interns to work with all age groups in a wide variety of exposures and health care settings--ranging from pediatrics to geriatrics, and from the sick to the well.
4. Our preceptors are highly-trained and supportive. Over 75% have a master's degree and/or an advanced certification (i.e. certified nutrition support clinician, certified specialist in pediatrics, certified specialist in sports dietetics, etc).
5. Our mentor program allows interns to work with RDs hand-selected by the director. The mentors provide additional support in both personal and professional development for the makings of a successful RD.
6. To date, our first-time RD exam pass rate is excellent, exceeding 96%.
7. Interns are based out of the same location, allowing them to develop a peer-based support.
8. This program is located in the historical and cultural city of Charleston, SC.
9. We pride our program on the variety of experiences offered. Interns enjoy the ability to see a little bit of everything.
10. Interns are provided training in RD exam preparation and job seeking skills.
