

Annual Security Report/ Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act: Notice of Availability

The Medical University of South Carolina is committed to providing the safest environment possible for work and study. Part of that commitment involves providing information about campus safety and security, crime statistics, and resources to current as well as prospective students and employees.

As such, the Medical University of South Carolina is pleased to announce that its Annual Security Report is now available. This report is required by federal law and contains policy statements and crime statistics for the university. The policy statements in the report address MUSC's policies, procedures and programs concerning safety and security; for example, policies and procedures for responding to emergency situations, emergency notifications, timely warnings, sexual assaults, domestic violence, dating violence, and stalking.

The report also provides information on topics such as crime prevention and awareness programs, authority of campus law enforcement officials, crime and emergency reporting procedures, disciplinary procedures, and other matters of importance related to security and safety on campus. The past three (3) years' worth of statistics are included for certain types of crimes that were reported to have occurred on campus, in off-campus buildings or property owned or controlled by the university, and on public property within or immediately adjacent to the campus.

You may request a paper copy of the annual security report free of charge by contacting or visiting the Medical University of South Carolina Department of Public Safety at 101 Doughty Street, Charleston, S.C. 29425, or by calling (843) 792-2261. This report is also available online on the Medical University of South Carolina Department of Public Safety's *Reports & Crime Statistics* webpage at: <https://web.musc.edu/about/safety/public-safety/reporting>
